

ERRATUM

Unfortunately, in the figure on page 20 a number of text errors have occurred. Below you'll find the correct figure.

Person orientation:	A focus on the human being as a whole, rather than as a diagnostic label or illness.
Functioning:	A focus on performance of everyday activities.
Support:	A focus on providing assistance for as long as it is needed and wanted.
Environmental specificity:	A focus on the specific context of where a person lives, learns, socializes, or works.
Involvement:	A focus on including individuals as full partners in all aspects of rehabilitation.
Choice:	A focus on the person's preferences throughout the process.
Outcome orientation:	A focus on evaluating rehabilitation in terms of the impact on client outcomes.
Growth potential:	A focus on improvement in a person's success and personal satisfaction, regardless of the person's current difficulties.

Anthony et al. (2002), p. 81; Adapted from Farkas et al. (1989)
